There will be a draft letter sent out for you to sign and send in if you would like. You can also do a cover letter and highlight from the page and send it in.

 HISTORIC
FLETCHER PLACE

- Dugout Bar- bands playing outdoors at the dugout. Bands are ending at 10:00pm but the decibel level is very loud. We as a board want to start a conversation and write a letter and meet with the owner and see what solutions we can come up with. Also invite him to our next meeting. Possibly measure the decibels before we meet with him, or let him know we are going to measure the sound. Loop around with Sergeant Evans regarding how to measure the sound and what the neighborhood guidelines are for noise ordinance.
- Bicycle safety coalition- clear of vehicles- cars are parking on the sidewalk in front of the dugout. Nick has been made aware of it and Counselor Jones is also aware.

Next meeting is Tuesday June 13th

Adjourn and Thank you!
